Fast, accurate, comprehensive commercial property research

Planning Applications and Decisions

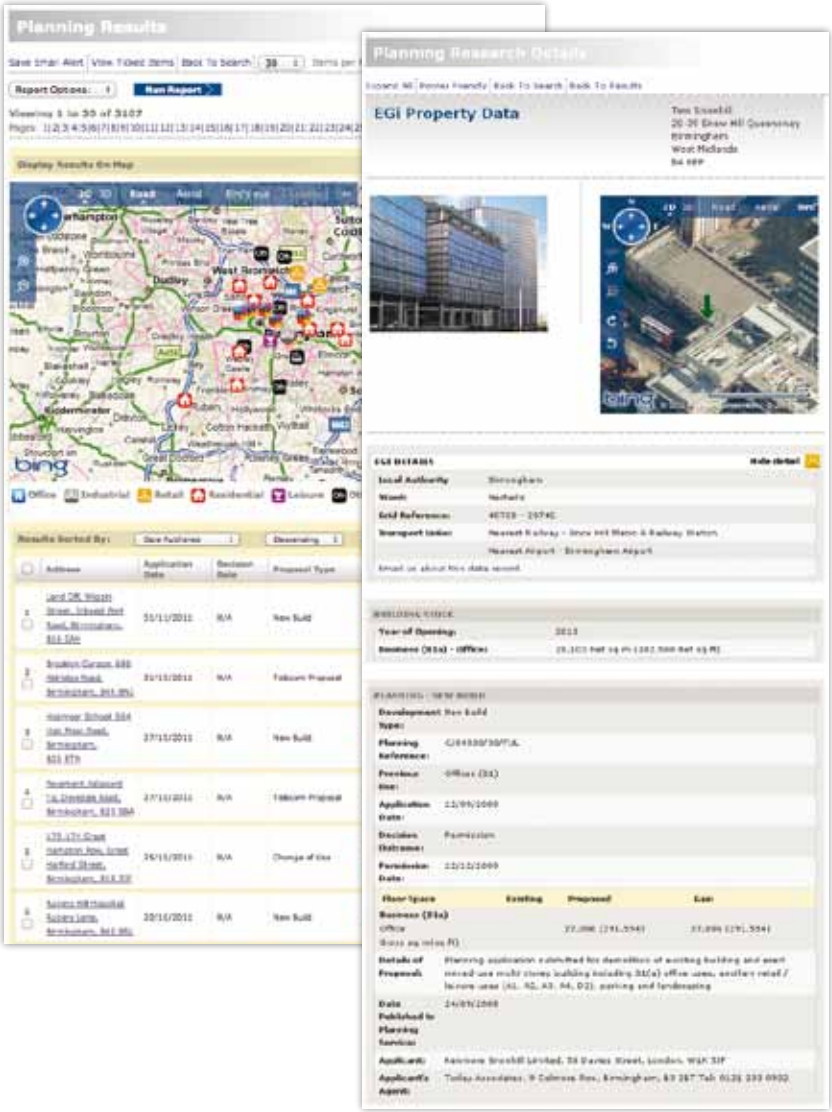
EGi 's Planning Applications and Decisions is the only planning database that enables you to track all planning applications for:

- Commercial properties over 500 sq metres
- Residential developments over 15 units
- Telecoms over 10 sq metres
- Nursing homes over 15 beds
- Hotels over 15 rooms

Our researchers are in constant contact with ALL local authorities, which means we can update you immediately from the initial application and then throughout the decision process.

Use EGi Planning Data to:

- Create new business opportunities by identifying who is making planning applications in your area and by being the first to find out about positive decisions made
- Understand competitor activity by viewing what planning applications they are submitting



EGi Planning features:

- Search our planning database
  Create your tailored search by location, company, development type or planning decision dates
- Email alert service
  Set up email alerts about specific locations and sectors to be updated immediately with planning pipeline decisions as they happen
